This is a private ski lodge rather than a hotel, so please keep that in mind. Members and guests are responsible for cleaning up after themselves and it is much appreciated if you can help with a chore or two while staying. We have no dedicated cleaning staff so it's up to each of us to upkeep the lodge! Any questions or concerns reach out to the trip leader. The lodge manager can help as well.

If you are bringing a guest please declare them on your signup form with their name and contact information in the "Guests" field. We ask that each member limit their guest maximum to two guests per member. If you have any questions or concerns please feel free to reach out to the trip leader.**

NOTES: 1. As a member of SKIBACS this is our lodge and our responsibility. It is the responsibility and requirement for each of us to clean up the lodge and clean up after ourselves. There is no maid service cleaning the lodge. This includes but is not limited to use of the kitchen, bathroom, bedrooms, and all common areas. Please do your part, and also check in with the lodge caretaker Corey, to see if there are other tasks that you may assist with.
